Experience

Cross Market Investigator Aug. 2025 – Jul. 2026
Cboe Global Markets *Chicago, IL*

- Conducted cross-market surveillance on 250,000+ derivatives transactions daily using Nasdaq SMARTS and internal tools to detect potential spoofing, layering, wash trading, and index expiration manipulation
- Performed forensic analysis of 15M+ order and execution records using Python (Pandas, NumPy), SQL, and Excel to identify potential exchange rule violations
- Investigated suspicious trading patterns across derivatives markets, synthesizing order-level data and surveillance alerts to determine escalation necessity
- Produced 40+ investigative memoranda and case summaries presenting evidence of potential market manipulation to regulatory and enforcement decision makers
- Developed Python-based automation tools to streamline surveillance data extraction and investigative workflows, accelerating analysis turnaround by 25%

Associate Analyst, Business Enablement Jul. 2024 – Aug 2025
FINRA *Westbury, NY*

- Evaluated 100+ broker-dealer compliance processes, converting regulatory obligations into streamlined workflows
- Led 12+ cross-functional workshops with senior stakeholders, shortening review cycles by 30%
- Managed 10+ optimization initiative projects in Power BI and Excel VBA with 98% on-time delivery
- Analyzed root causes of inefficiencies across 15+ departments, reducing compliance risk exposure by 40%
- Implemented governance frameworks clarifying roles, escalation protocols, and accountability metrics, improving audit readiness by 22%
- Authored executive-level reports linking regulatory requirements to business outcomes, influencing C-suite decisions on compliance strategy

Data Analyst Resource Management Intern May 2024 – Jun. 2024
Centene Corporation *Westbury, NY*

- Designed dashboards and Excel-based tools reducing licensing overuse by 15%, improving compliance adherence
- Revamped learning materials, boosting workshop participation and knowledge sharing among 50+ employees
- Collaborated with management and technical teams to translate business requirements into actionable technical documentation, enabling timely system enhancements

Education & Certifications

Hofstra University Sep. 2020 – May 2024
Bachelor of Business Administration in Business Analytics *Hempstead, NY*
