EXPERIENCE

Cross Market Investigator

Aug. 2025 – Present

Cboe Global Markets

Chicago, IL

- Conduct cross-market surveillance on 250,000+ daily derivatives transactions using Nasdaq SMARTS to detect spoofing, layering, wash trading, front-running, and index expiration manipulation
- Investigate 15M+ order and execution records using Python (Pandas, NumPy), SQL, and Snowflake to identify exchange rule violations and market abuse patterns
- Deliver 100+ full-cycle investigations, translating data signals into defensible memoranda for regulatory and enforcement decision makers
- Maintain TB-scale Snowflake surveillance infrastructure (10x query speed); build Python automation tools reducing analysis turnaround by 25%

Associate Analyst, Member Supervision

Jul. 2024 – Aug. 2025

FINRA

Westbury, NY

- Evaluated 100+ broker-dealer compliance processes, converting regulatory obligations into written supervisory procedures (WSPs) and operational workflows
- Implemented governance frameworks clarifying roles, escalation protocols, and accountability metrics, reducing compliance risk exposure by 40%
- Authored executive-level reports linking regulatory requirements to business outcomes, influencing C-suite decisions on compliance strategy

Data Analyst, Resource Management (Intern)

May 2024 – Jun. 2024

Centene Corporation

Westbury, NY

- Designed 5 Power BI dashboards monitoring licensing and operational metrics, reducing overuse by 15% and improving compliance adherence
- Translated business requirements into actionable technical documentation, enabling timely delivery of compliance-related system enhancements
